## SUMMARY

---

Senior level Application developer accomplished in multiple programming languages and technologies.

### Recent and key achievements include:

- Leading front-end development of large-scale corporate websites.
- AngularJS global and single-page application integrations.
- Building in-office and developing desktop/mobile applications with Arduino+Cordova.

## TECHNICAL SKILLS

---

### Languages/Technologies

- HTML5/CSS3
- Javascript/jQuery
- AngularJS
- Assemble.io/Handlebars
- LESS/SASS
- NodeJS/NPM

### Software

- Cordova/PhoneGap
- Arduino
- PHP/MySQL
- GruntJS
- Bower
- Git
- Adobe Photoshop CS5
- Adobe Fireworks CS5
- Adobe Flash CS5
- Blender 3D

## WORK EXPERIENCE

---

**Rockfish (Cincinnati, Ohio) – [www.rockfishdigital.com](http://www.rockfishdigital.com)**

### Web Application Developer (7/2012 - Present)

Duties include:

- Architect, code and lead front-end development of varying scaled websites.
- Setup and maintain vendor script/package management.
- Contribution to and branch management of "Git-flow" styled Git repos.
- Perform multiple environment (i.e. staging, production) code deploys.
- Write GruntJS automation processes, such as LESS/SASS preprocessing, JS concatenation and code deployment.
- Document all of the above processes for development and deployment handoffs.
- QA bug fixes

Key Achievements:

- Lead front-end development and CMS integration of 3 large-scale corporate websites. Some with back-end development done in-house, while others sent off-shore. An MVC approach, using Handlebar templates on the front-end was key to making code handoff a minimal effort.
- Used AngularJS site wide, as well as for single page applications.
- Developed internal, Arduino-based flow metrics and tablet interface for company Kegerator.
- Mentored other developers in learning the technical skills mentioned above.

## **WORK EXPERIENCE (CONTINUED)**

---

**gyro (Cincinnati, Ohio) – [www.gyro.com](http://www.gyro.com)**

**Web Application Developer (7/2006 - 7/2012)**

Duties included:

- Develop, version and maintain PHP-based websites/microsites
- Plan, build, optimize and write queries for MySQL database architectures for integration with desktop and web applications
- Develop, version and maintain reusable class files and code snippets
- Develop rich media experiences (banner ads, in-page experiences) with Flash
- Develop and maintain auto-updating Adobe AIR applications
- Develop Flash-based kiosk presentations
- Produce, edit and convert/optimize video and audio
- Develop HTML emails for mass mailings

Key Achievements:

- Flex-based Adobe AIR application development for desktop and mobile platforms
- 3D/Augmented reality using Blender 3D and Flash

**General Audit Corporation (Lima, OH) – [www.keybridgemed.com](http://www.keybridgemed.com)**

**Systems Analyst/ Programmer (7/2003 - 7/2006)**

Duties included:

- Developed in-house, Windows applications for performing functions relevant to the collection industry.
- Designed comprehensive reports based off database figures.
- Designed and prepared vector or raster graphics for prepress and/or web marketing materials.
- Designed and updated all company web sites, including Search Engine Optimization, cross-browser compatibility, and hit activity reporting.
- Documented procedures required to perform my regular duties.
- Troubleshooted technical issues as they occurred with clients and within the office.

## **EDUCATION**

---

**Rhodes State College (Lima, OH) – [www.rhodesstate.edu](http://www.rhodesstate.edu)**

**CIS - Multimedia, Associate Degree (9/1999 – 6/2001)**

**University of Cincinnati – College of Applied Science**

**Architectural Engineering Technology (1998 - 1999)**
